Welcome to the Ambedkar Knowledge Center,

“Educate – Agitate – Organize” in alignment with the profound vision of Dr. B.R. Ambedkar, we extend an invitation to nurture today's youth. For the first time in India, the Ambedkar Knowledge Center and Buddha Vihar Building are taking shape. Our earnest endeavor is to actualize Dr. Ambedkar's ideals of equality, social justice, and human rights through this project, commencing with a dedicated commitment to make these aspirations a reality.

"Navayan" or "New Vehicle" signifies a fresh journey, and "Project Navayan" signifies a new dawn, utilizing education as a catalyst for positive change in the lives of Dalits and Bahujans.

We are convinced that establishing a platform like this, dedicated to social movements, will instill a new consciousness in contemporary society, laying the ground work for a new social order. This project aims to democratize modern knowledge, ensuring accessibility for all Unprivileged communities, fostering intellectual discussions, and providing a robust foundation for social movements.

With a steadfast belief that individuals with a social conscience will actively contribute to this significant initiative, we ceremoniously laid the foundation stone on Ambedkar Jayanti in 2023 for the construction of a building in the village of John Peta Dalit Setilment, Kaikaluru Constituency, Andhra Pradesh.

Project Navayan's Mission

For centuries, Dalit Bahujans in India were denied the right to education. It was only after India gained independence that Dr. B.R. Ambedkar framed the constitution, granting Dalit Bahujans the right to education. Even after half a century of implementing the Constitution, the government is struggling to enforce the Free Compulsory Education Act, highlighting the challenges faced by the downtrodden communities in accessing laws and rights. Due to limited resources and social poverty, education has become basic literacy for many. Dalit Bahujans face a scarcity of jobs beyond clerical roles. Although education may seem somewhat accessible, our youth, in this competitive and technologically advanced world, lack the necessary skills. Statistics reveal that 99% of Dalit villages lack proper social development facilities and quality modern education in our country. In an effort to bridge these gaps, Project Navayan - Human Rights Initiative NGO has emerged.

Project Navayan aims to implement the principles of Gautama Buddha, Dr. B.R. Ambedkar, Phule, and Periyar. The project focuses on empowering Dalits and Bahujans, improving their socio-economic status, ensuring self-sufficiency, and working towards their freedom. Initiatives like the Ambedkar Knowledge Center and the construction of Buddha Vihar are underway, with the goal of providing enhanced education for empowerment.

Through the collaborative efforts of Project Navayan NGO and the John-Peta Youth Association team in Kaikaluru Constituency, and with the blessings of local MLA Sri. Dulam Nageswara Rao, Atapaka Gram Panchayat acquired 10 cents of land, and the foundation stone was laid.

With this Dalit Bahujan students in Kaikaluru constituency and surrounding villages will now benefit from advanced learning facilities which will be available only available in metro cities.

We've come a long way, it's your turn.

Your contributions will be used to construct the Ambedkar Knowledge Center and Buddha Vihar. Every donation, regardless of its size, brings us one step closer to achieving our goal. Your generosity will be permanently acknowledged on the Navayan website's Donors Wall.

Facilities to be made available after construction phase

Buddha Vihar - Community Hall

The Buddha Vihar being constructed on the ground floor with a seating capacity of about 400 is considered as a community development hall, Buddha Vihar is available for inter-caste, inter-religious and ideal marriages on a free basis, and registration certificates are granted by Navayan Buddhist Society for marriages here. The hall provides open design accommodation and modern facilities for students to hold workshops on various social issues, cultural gatherings, Buddha Vihar is a platform for community building bringing together people from different backgrounds to promote social harmony and development.

World Class Computer Lab

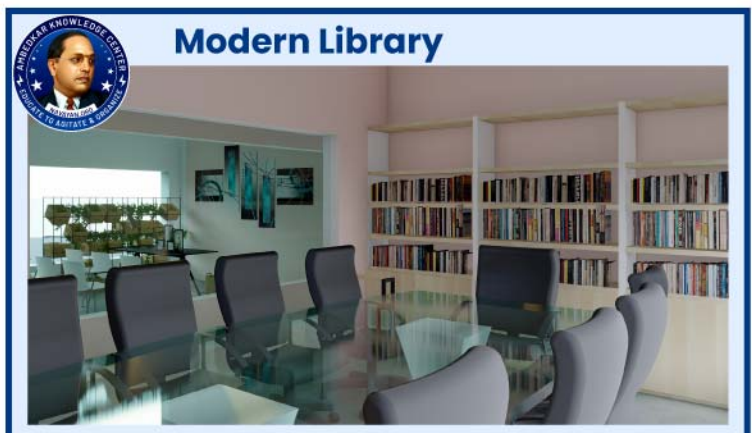

Ambedkar KnowledgeCenter has a computer lab with latest technology available. Through this, students can avail a wide range of computer skills training programs from basic level computer skills to advanced artificial intelligence (AI) and machine learning (ML) concepts through the registration process with free of cost.

Students also have access to programming languages, app and web development, and multimedia and design courses, along with a variety of courses that change from time to time to help them achieve their career goals. With these resources, the knowledge and skills needed to thrive in today's digital world and reach their full potential can be learned online through a global network of changemakers.

Conference - Class Room

A global network of change makers connects professionals from diverse fields to provide students with live projector-based training. This training, covering subjects such as business, language, communication skills, and personality development, is delivered through online sessions. The conference room serves as a hub for social and political discussions, fostering mutual cooperation, idea sharing, and strategic planning for social change.

Modern Library

Only by reading and understanding history we can build the foundations of the future. For this, the library has books on all fields including history, social justice, human rights and works of Dr. BR Ambedkar. It fosters an environment where literary exploration becomes a tool, to create a more informed and enlightened perspective on different aspects of society.
